RESTRICTION REQUIREMENT

1. Applicant's election of Group I in the reply filed on May 20, 2005 is acknowledged.

Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. This application is in condition for allowance except for the presence of claims 28-32 to a group non-elected without traverse. Accordingly, claims 28-32 have been cancelled.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Steven C. Benjamin on August 8, 2005.

The application has been amended as follows:

- i) In claim 1, line 10, the language "to a less or" has been changed to --or less--;
- ii) In claim 20, line 2, the term "resin~~s~~" has been changed to --resin--;
- iii) In claim 22, line 2, the term "pigment" has been changed to --filler--;
- iii) In claim 33, line 2, the term "are" has been changed to --is--; and
- iv) Non-elected claims 38-32 have been cancelled. Said group was non-elected without traverse.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance: The present claims are deemed allowable over the prior art of record in that the latter neither anticipate nor render obvious blending a polyester with a low glass transition temperature with another polyester resin with a high glass transition temperature, wherein each of said polyesters meets the hydroxyl number and molecular weight dictated in the present claims, much less said blend in combination with barium sulfate and crosslinker components to provide a curable coating composition. The closest prior art of record, Japanese 10-130571, discloses a blend of polyesters with differing glass transition temperatures in combination with a curing agent and optional additives. The polyesters of said reference, however, do not meet the hydroxyl number required by the present claims. Accordingly, the present claims are deemed allowable over the prior art of record.

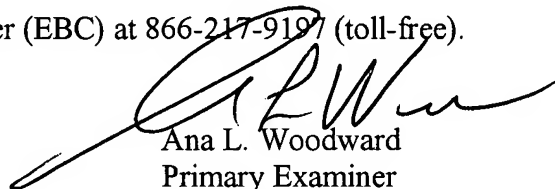

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ana L. Woodward whose telephone number is (571) 272-1082. The examiner can normally be reached on Monday-Friday (8:30-5:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James J. Seidleck can be reached on (571) 272-1078. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
